Introduction

We present to you our game:
Super Retro Tic Tac Toe

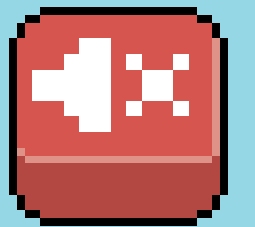

An ultimate tic tac toe with fun features
like hand tracking and hidden easter eggs!

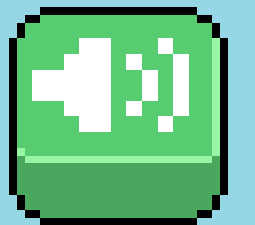

Main characteristics - Arcade theme

Our game uses custom-made retro music and pixel art to give it that retro, nostalgic vibe we all know and love!

We made buttons that react when you hover your mouse over them, we added fun sound

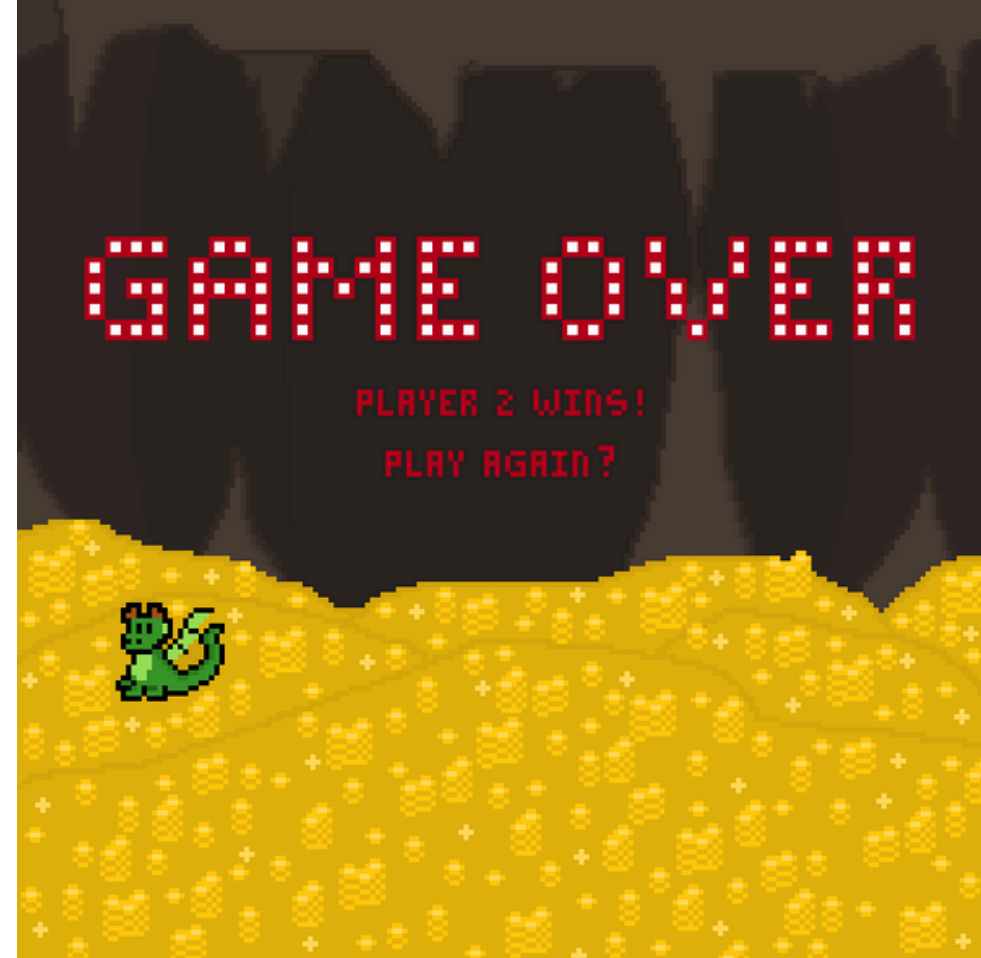

effects and we made animations and transitions between menus,

all to ensure the game is as fun for you as possible!

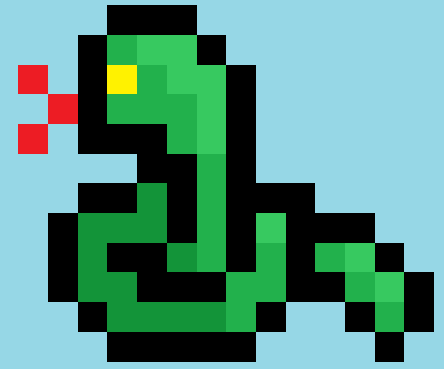

Our different game over menus

Main characteristics - Customizable hand tracking

Have the freedom to play on your own rules

2 play modes :

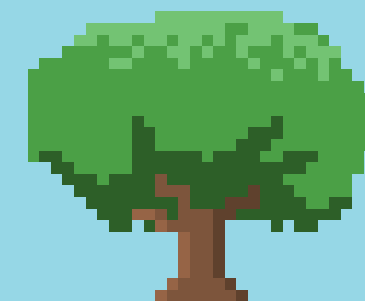

- mouse mode
- hand mode

Hand Mode has
up to five
variants !

Select at the start how you want to play

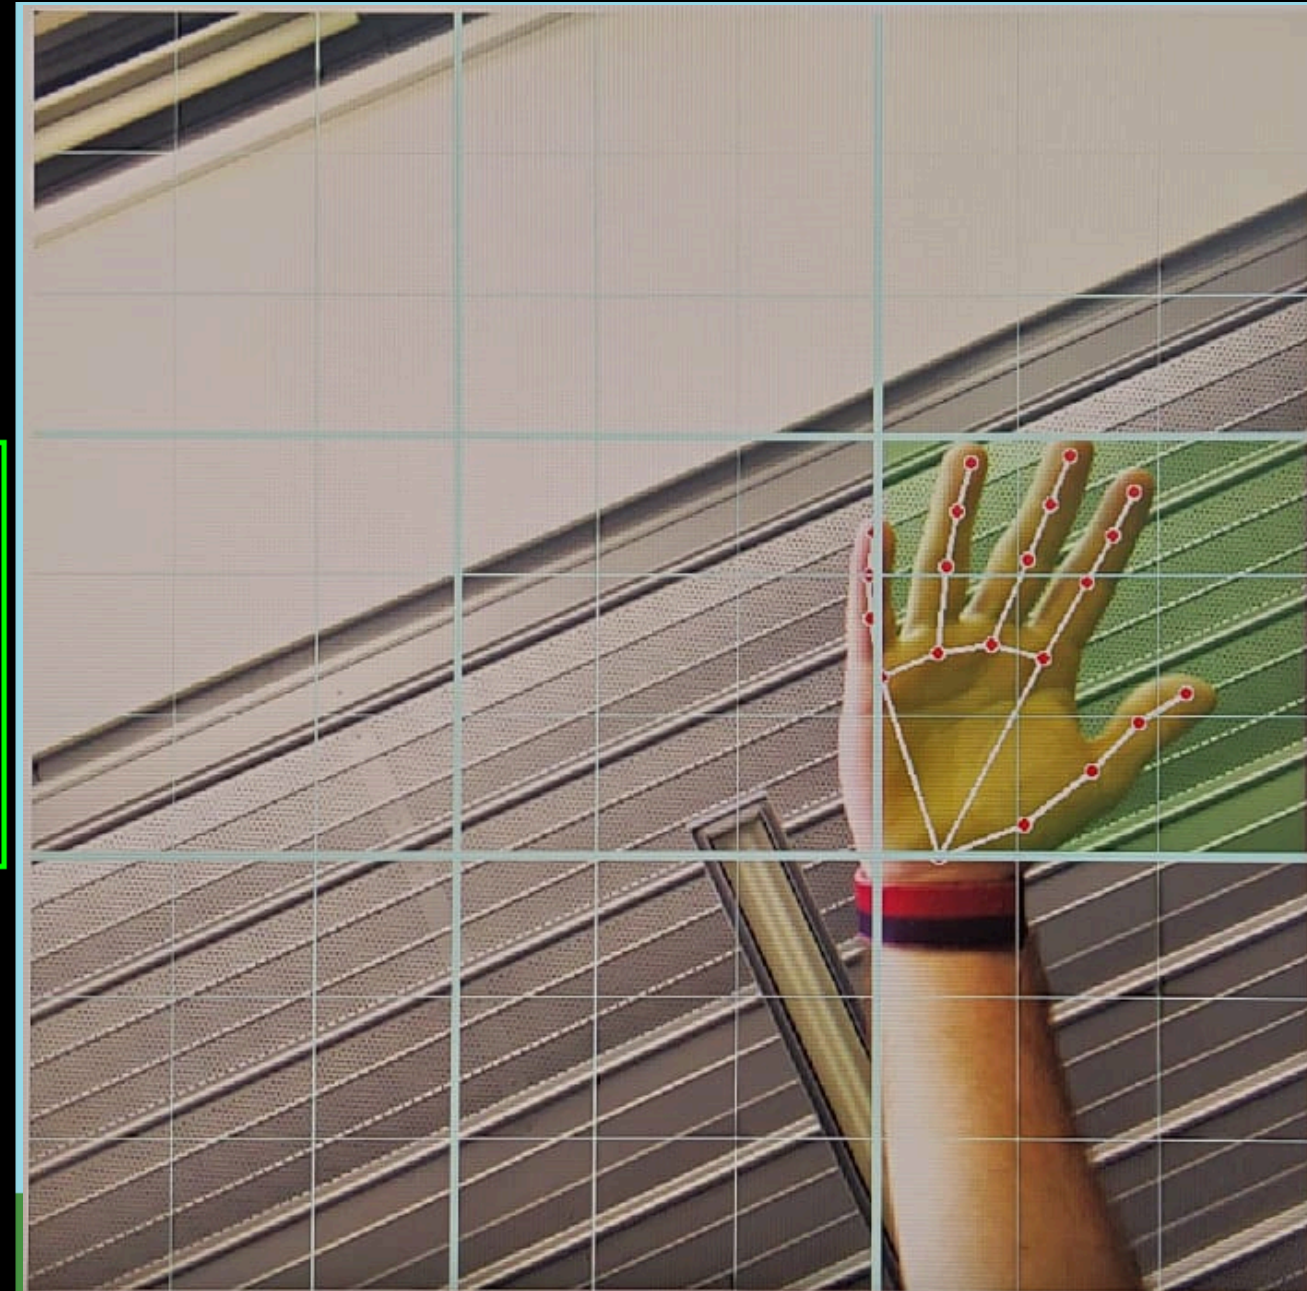

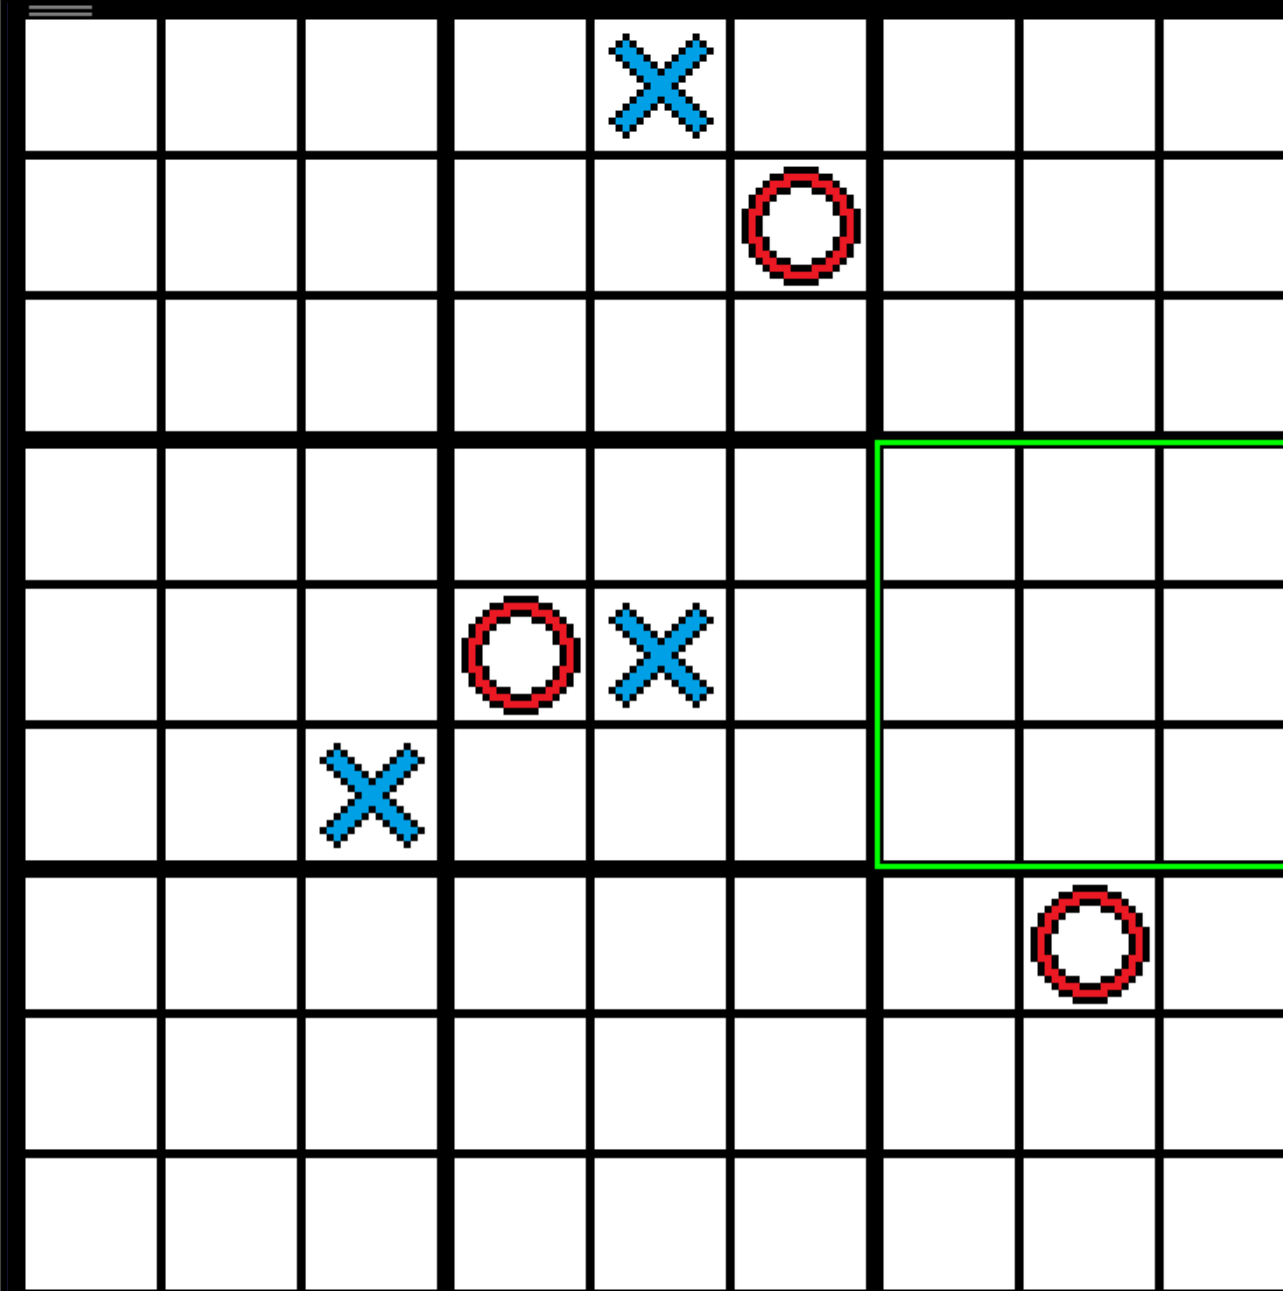

Use your hand to select in
which cell you want to play !

This is what YOU will see when playing with your hand !

Come and
dive into
this
amazing
experience!

Focus on the five hand
mode variants

Select how many raised fingers will
be the sign to choose your play cell.

Try every combination of signs as
long as you stick to the number of
raised fingers you chose !

Main characteristics - AI

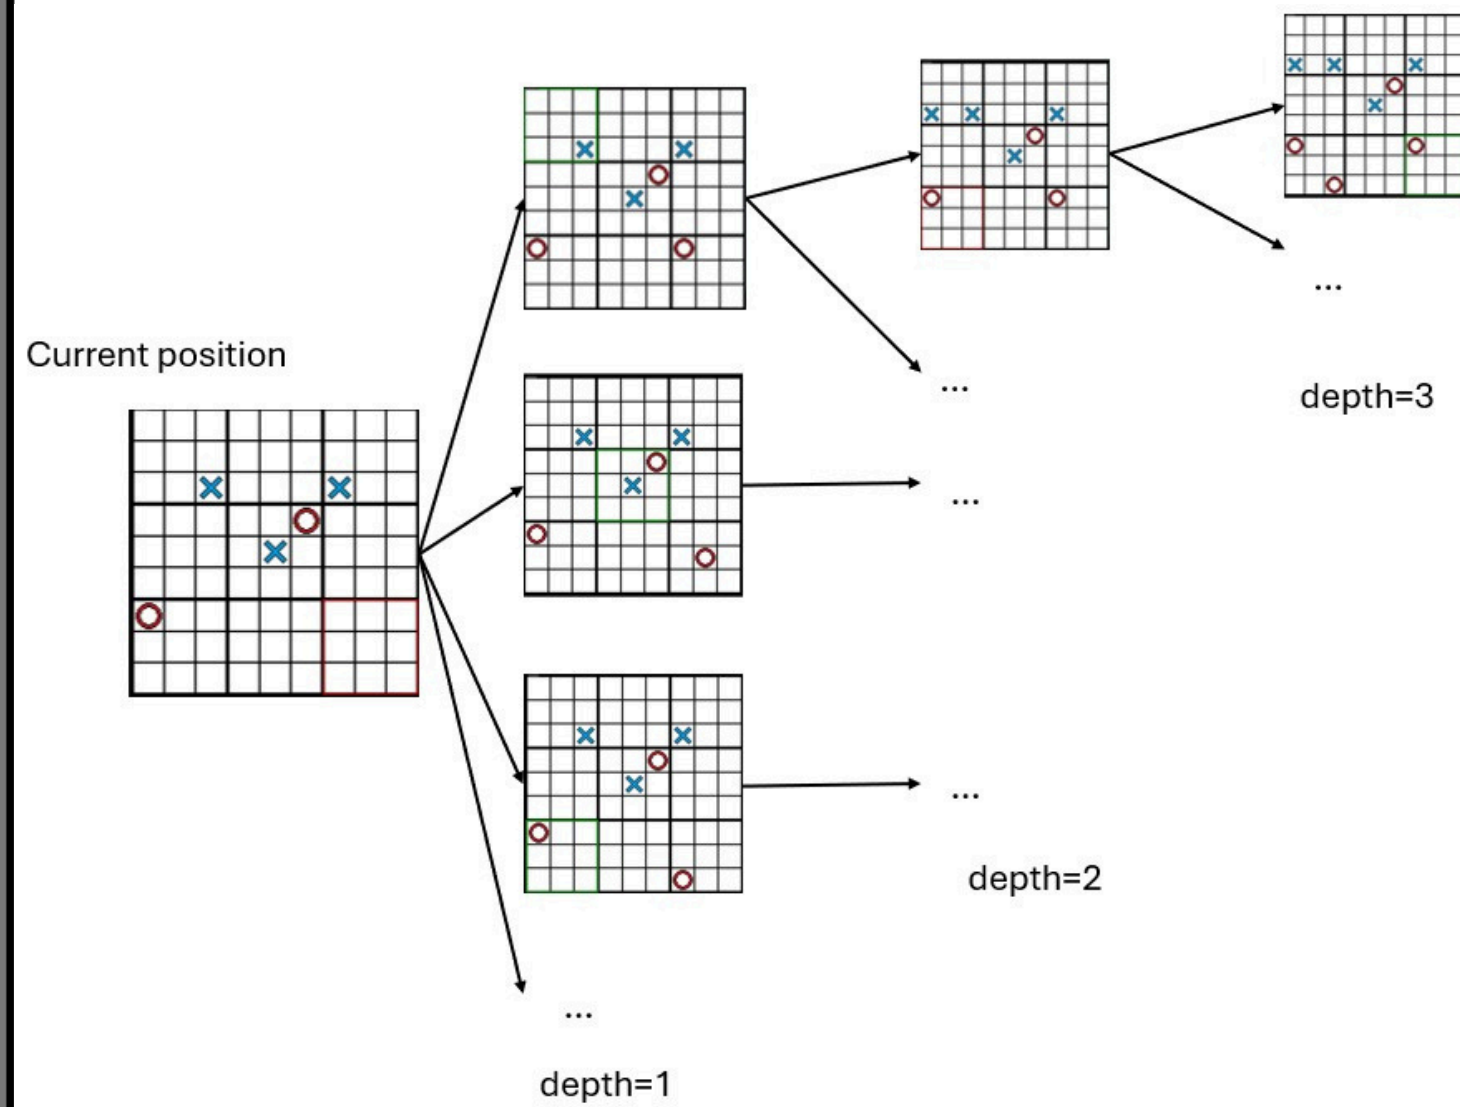

Three gaming experiences across three distinct difficulty levels!

Dive into the adventure that adapts to you: start gently with level 1, develop your skills at an intermediate pace with level 2, or launch straight into expert mode for the ultimate gaming experience with level 3!
